

### **MEC's Makamu and Boshielo Hand-Over Tablets to Matsambu Class of 2021**

During every educational journey, specific difficulties are bound to spring up, but it takes an inward drive fuelled by different motivational factors, to be able to overcome these difficulties. MEC for CoGHSTA, Mr Basikopo Makamu accompanied by the MEC for Education, Ms. Polly Boshielo made a relief and handed over tablets on the 4<sup>th</sup> June 2021 to 76 Grade12 learners of Matsambu High School, Nkuri village in the Greater Giyani Municipality.

“It is joyous to experience the completion of a particular level of education, especially Grade 12. My memories are greatly revived to see educators who taught and gave me guidance until I receive grade12 in this school some years back. I’m personally overwhelmed today as I hand-over these gadgets as gesture of ploughing back and investing in the future learning career of Matsambu Class of 2021.” said Makamu.

“Educators are highly crucial motivational and guiding tools. In fact, one can argue that they are at the front line of motivating you as learners to greater educational heights. They are not only required to have the ability to educate, but also the ability to motivate you every time they interact” said Boshielo.

In addition to the tablets given, the school also received a borehole with a 20000 litres reservoir water tank which was donated by Mapondo Tanks.

In conclusion, the event was also graced by the Mayor of Greater Giyani Local Municipality, Cllr. B.A Shivhambu and Executive Management of Matsambu High School led by the Headmaster, Mr. B.M Baloyi.
