

CoGHSTA and Molanco transforms a shack to a home for Tlou family

Blessings came in the form of a newly build and fully furnished home for the Tlou family in Manenzhe village-Musina Municipality when the MEC for Cooperative Governance, Human Settlements and Traditional Affairs together with Molanco Trading Enterprise officially handed over the house to orphans, Emanuel, Morongoa and Sophie Tlou who were living in a two roomed dilapidated shack.

Before cutting the ribbon to the house on the 18th of February 2019, MEC Ndou thanked Molanco for donating the house to the two young Tlou girls, Morongoa and Sophie who stayed alone as their brother had gone to look for work to support them.

He further urged community members that were present at the handing over ceremony to not take advantage of the children but offer support where they can and raise them as their mother passed on in 2016.

Sharing the same sentiments as the MEC, Vho Thovhele Mmbangiseni Manenzhe thanked all parties that had a hand in ensuring that the Tlou family have a decent roof over their heads. "I am honoured to be part of this special occasion and cannot thank the Department of CoGHSTA and Molanco Trading Enterprise enough for the donation made to the Tlou, child headed house hold," he said.

Morongoa Tlou, who is currently in grade 10 expressed that their living conditions in the shack were unbearable." I still feel like it is a dream that today my sister and I will get to sleep in bedrooms that are well furnished, a decent kitchen and lounge," she said shyly.
